

COLLEGE ID POLICY

Clatsop Community College's commitment to maintain a secure environment requires a verified form of photo identification. The College requires all current admitted students, faculty, and staff carry a College-issued identification card when on campus and when accessing any College facility. The term "College ID" also may refer to a College provided photo identification badge. College ID's may be provided to additional College populations as determined by the Registrar's Office. The ID is considered property of the College, and is to be presented upon request from a College staff person needing to establish an individual's identity.
