

STAFF PARTICIPATION IN COMMUNITY ACTIVITIES

The Clatsop Community College Board of Directors encourages the administration, staff, and faculty to be involved in community activities that help to establish working affiliations with the community and promote the mission of the College. More specifically, this includes community boards, commissions, task forces, service clubs, and similar associations that are deemed to have the above results.

The board recognizes that Clatsop Community College employees are a human resource that should be committed to the service of the College and the community it serves.

The College receives the following from staff involvement in these activities.

1. Feedback on educational programs;
2. Assessment of community needs;
3. Improved intergovernmental cooperation.

The Board further realizes that participation in the above types of activities leads to personal and professional development of its staff.

College resources, as deemed appropriate by the President, may be used to facilitate administration and staff involvement in community activities.

The Board encourages staff to be involved in community events that are cost effective and build the effectiveness of Clatsop Community College.
