### **Course Description**

Students develop skills to analyze and document historic buildings, including field sketches, measured drawings and photographs. They will assess existing building conditions including materials, components and systems to determine qualities and deterioration.

### **Course Learning outcomes**

After completing this course, a student will be able to:

- Describe the process of documenting a building
- Accurately take field measurements, create field notes and create field sketches
- Create preliminary measured drawings
- Take basic field notes and photographs

### **Course Outline**

Overview of the building documentation process

HABS/HAER/HALS

Practice: Laying out measured field drawings

Field work: measuring, field notes, field sketches, photographs

Preliminary measured drawings

Drawing presentations

### **Grading**

A: Attend both days, actively participate, complete projects

B: Attend both days, actively participate

C: Attend both days

D: Miss one day

F: Miss one day and fail to participate

### **Reading**

Reading packet provided in class

### **Required Material**

Graph paper (sketch pad or clipboard), pencils, tape measure

### **Recommended Material**

Camera, drafting triangle, architect's scale
