IDENTITY THEFT – RED FLAG RULES

This policy establishes an Identity Theft Prevention Program as required by the Federal Trade Commission’s (FTC) Red Flags Rule which implements Section 114 of the Fair and Accurate Credit Transactions Act of 2003. Because the College provides a deferred payment plan throughout the term for students to pay their bills, and because credit checks may be done on certain employees, it must develop and implement a written identity theft prevention program.

The Board delegates responsibility for the Identity Theft Prevention Program to the President.
