Work Experience

The Cooperative Work Experience program allows students to earn college credit for working in the community in an area related to the student's academic goals. Student may earn one (1) credit for every 33 hours at their job site. All work experience students are required to take a one (1) credit work experience seminar with their first work experience. Contact the Director of Cooperative Work Experience at (503) 338-2480 for registration information and an orientation schedule. Please stop by the Career Center in Towler 312 for more information.

North Coast Watershed Monitoring Program

The North Coast Watershed Monitoring Program is a partnership between local watershed councils and Clatsop Community College to develop teams of volunteers to work with their local watershed councils to monitor water quality. This class is designed to train anyone interested in water quality to monitor the water in their rivers, streams or lakes. Participants will learn to test various parameters of water quality, including physical, biological, and chemical properties. The class will take place in a Clatsop CC science lab and will include field work in area streams, rivers and lakes.

Training will begin fall term.
