

Completion Rates for Fall 2014 Cohort by Race, Ethnicity, and Gender

This data represents completions as reported to the National Center for Education Statistics. The college annually reports this information as part of the Integrated Postsecondary Education Data System (IPEDS).

While the college may enroll more than 2000 students in a typical Fall Term, the college reports a much smaller subset of students to IPEDS. This subset is used to calculate completion, retention and transfer rates for the college.

This information is provided to allow you to make informed decisions about your educational choices, and is part of the Student Right-to-Know information provided by all colleges.

A "0%" indicates there were no graduates in the sample. A "--" indicates there were no reported students in the cohort.
