Western Oregon U	February 1, 2021	March 1, 2021

You may complete your admission application on-line for any Oregon public university. If you qualify for an application fee deferral, the deferral application must be mailed or faxed to the university. See your Talent Search Advisor to obtain a fee deferral form. Submitting a fee deferral with your application allows you to delay paying the \$50-\$65 application fee. You will then pay the fee only to the college you decide to attend using your financial aid in the fall of 2020.

Remember to get your official high school transcript sent to all colleges you apply to as well as any college transcript you may have. Also, PSU, OSU and UO require your SAT and ACT scores come directly from the testing agency.

Note: Some schools only require your application for admission to consider you for scholarships. Others require a separate, additional scholarship application form. Check your school's website under the "financial aid" tab to see if there are other forms you need to complete.
