

## AP 6600 Capital Construction

### References:

NWCCU Standard 2.F.5  
ORS 341.290(20)

### Capital Outlay Program

The President will annually report to the Board of Education on the capital program. The program will consist of the plans of the College concerning its future academic and student service programs, and the effects of such programs on construction needs.

Specifically, the Facilities Master Plan will include the following:

- Statement of educational plans
- Statement of energy plans
- *Statement of disabled persons' barrier removal*
- Location of program delivery
- Location of other owned lands
- College-wide priority lists
- College-wide capacity/load ratios
- College-wide supporting detail

### Contracts

Construction contracts will be awarded in accordance with AP 6350 and will comply with applicable laws relating to public works.

For state-funded capital projects, Higher Education Coordinating Commission (HECC) has the authority under ORS 341.933 to establish rules. See OAR 589-003-0100 for the project request process and criteria.
